

IN THE DRAWINGS:

Attached hereto are revised Figs. 2, 3 and 4 for approval. Applicants have identified the InGaAs cap layer 25, the InP cladding layer 24, the Zn coated diffusions layers, and commonly refer to the laser diode region as element 21 and the modulator region as element 22. Again, Applicants note that Figs. 2-4 are various stages of manufacture, and as such would not typically show the exact items in each drawing. Applicants affirm that no new matter has been added.
